1 Introduction

This is the OpenOffice template for JOBIM 2012 proceedings. Please do not modify or alter in any way the style sheets provided in this document. **A paper disregarding the format described in this document will be rejected (even if it was previously accepted by the program committee).**

Use *Helvetica* bold 14-point font for the title, *Helvetica* bold 12-point font for the subtitle, *Times New Roman* 11-point font for the name(s) of the author(s), *Times New Roman* 10-point font for the address(es), and *Courier New* 10-point font for the email(s). Please typeset the last name(s) of author(s) in small caps, starting with an uppercase first letter.

For the main text, use *Times New Roman* 11-point font and 6-point spacing between paragraphs. Italics may be used to emphasize words in running text. Bold type and underlining should be avoided. With these sizes, the interline distance should be set so that around 50 lines occur on a full-text page.

Note that the length of long papers must not exceed 8 pages, whereas short papers must not exceed 2 pages.

2 Document Structure (*Helvetica* 12-point type, bold)

The horizontal margins must be set to 2cm each, with no binding offset. The vertical margins must be set to 2.5cm each.

Title, subtitle, abstract and keywords do must be written in English (even for French written papers).

French versions of the title, the subtitle, the abstract and the keywords are required only for French written papers and may complete English versions. They must be included in a 17cm width dark blue (RGB: 0, 0, 128) frame. They must be typeset with the same font as the English version, with respective sizes 12-point, 11-point, 10-point and 10-point.

Les titre, sous-titre, résumé et mots-clés doivent être écrits impérativement en anglais (même pour les articles en français).

Les versions françaises du titre, du sous-titre, du résumé et des mots-clés sont requises uniquement pour les contributions écrites en français et viennent en complément des versions anglaises. Elles doivent être incluses dans un cadre bleu foncé (RVB : 0, 0, 128) de 17 cm de large. Elles doivent être dactylographiées avec la même police que pour la version anglaise, avec des tailles respectives de 12 points, 11 points, 10 points et 10 points.

2.1 Headings and Sub-headings (*Helvetica* 11-point type, bold)

Title, first, second (and, if required, third) level headings should be capitalized (*i.e.*, nouns, verbs, and all other words except articles, prepositions, and conjunctions should be set with an initial capital) and should, with the exception of the title, be aligned to the left. You have to use the numbering style given in this template (*i.e.*, 2.1, 2.2, etc.). For the first level, use *Helvetica* 12-point type, bold; for the second level and, if required, the third level, use *Helvetica* 11-point type, bold.

2.2 Page Numbering

Pages must **NOT** be numbered. Final pagination will be set by the editors of the proceedings.

2.3 Figures and Photographs

Please produce your figures such that they display well in black & white mode, and integrate them into your text file. Please note that no figure will be taken into account if not integrated in your text file.

Check that, in line drawings, lines are not interrupted and have constant width. Grids and details within the figures must be clearly readable and may not be written one on top of the other. Line drawings should have a resolution of at least 600dpi (preferably 1200dpi). The lettering in figures should have a height of 2mm (11-point type). Figures should be numbered and should have a caption which should always be positioned under the figures. The final sentence of a caption should end with a period. Please center the captions between the margins and set them in *Helvetica* 10-point font for the heading and *Times New Roman* 10-point font for the text (Fig. 1 shows an example). The distance between text and figure and the distance between figure and caption should be 12 points. Again, if you use the style sheets provided in this file, everything should be okay (a style is provided for the figures too).

To ensure that the reproduction of your illustrations is of reasonable quality, we advise you not to use any colors. The contrast should be as pronounced as possible. This particularly applies for screenshots.

2.4 Tables

Table content should be in *Times New Roman* 10-point font as well as their captions. The rules used for the figures are also applied for the tables (see Table 1 for example). Please note that no table will be taken into account if not integrated in your text file.

3 Citations

The list of references is headed *References*¹, it should be placed at the end of your contribution. It should be in *Times New Roman* 10-point font. Please do not insert a page break before the list of references. For citations in the text, please use square brackets [1] and consecutive ordered numbers [2,3] (not [3,2]) in list of references. Please find below examples on how to format references corresponding to articles [1], books [2], book chapters and proceedings [3].
